

GROWING TOGETHER

YOUR TRUSTED
CDMO PARTNER

VISION

“

WE **EMPOWER** OUR PARTNERS WORLDWIDE
WITH
**INNOVATIVE AND HIGH QUALITY HEALTHCARE
SOLUTION**

”

The inspiring journey of our **founders**

SANJEEV & SANDEEP JAIN

The journey of Sanjeev and Sandeep Jain is one of **resilience, vision, and extraordinary determination.**

From a small rented home in Delhi, the two brothers started with very little — **no formal business training, limited resources, and just a dream.** In the narrow lanes of Bhagirathi Palace near Chandni Chowk, they opened a **55 sq. ft. medicine shop, driven by the goal** of creating something of **their own.**

Seeing repeated medicine shortages and unmet demand, they spotted an opportunity. “Why just sell medicines,” they thought, “when we can make them?”

In 2005, they took a **bold step** — launching a **manufacturing unit** in Sidkul, Haridwar. With no roads, electricity, or mobile signal, they built it all themselves — even laying an 800-meter access road and erecting an iron tower to catch mobile signals.

They aimed for a turnover of **₹19 crore** that year. They achieved **₹194 crore**

TODAY

Akums Drugs & Pharmaceuticals is **India's largest** CDMO

14 world-class facilities

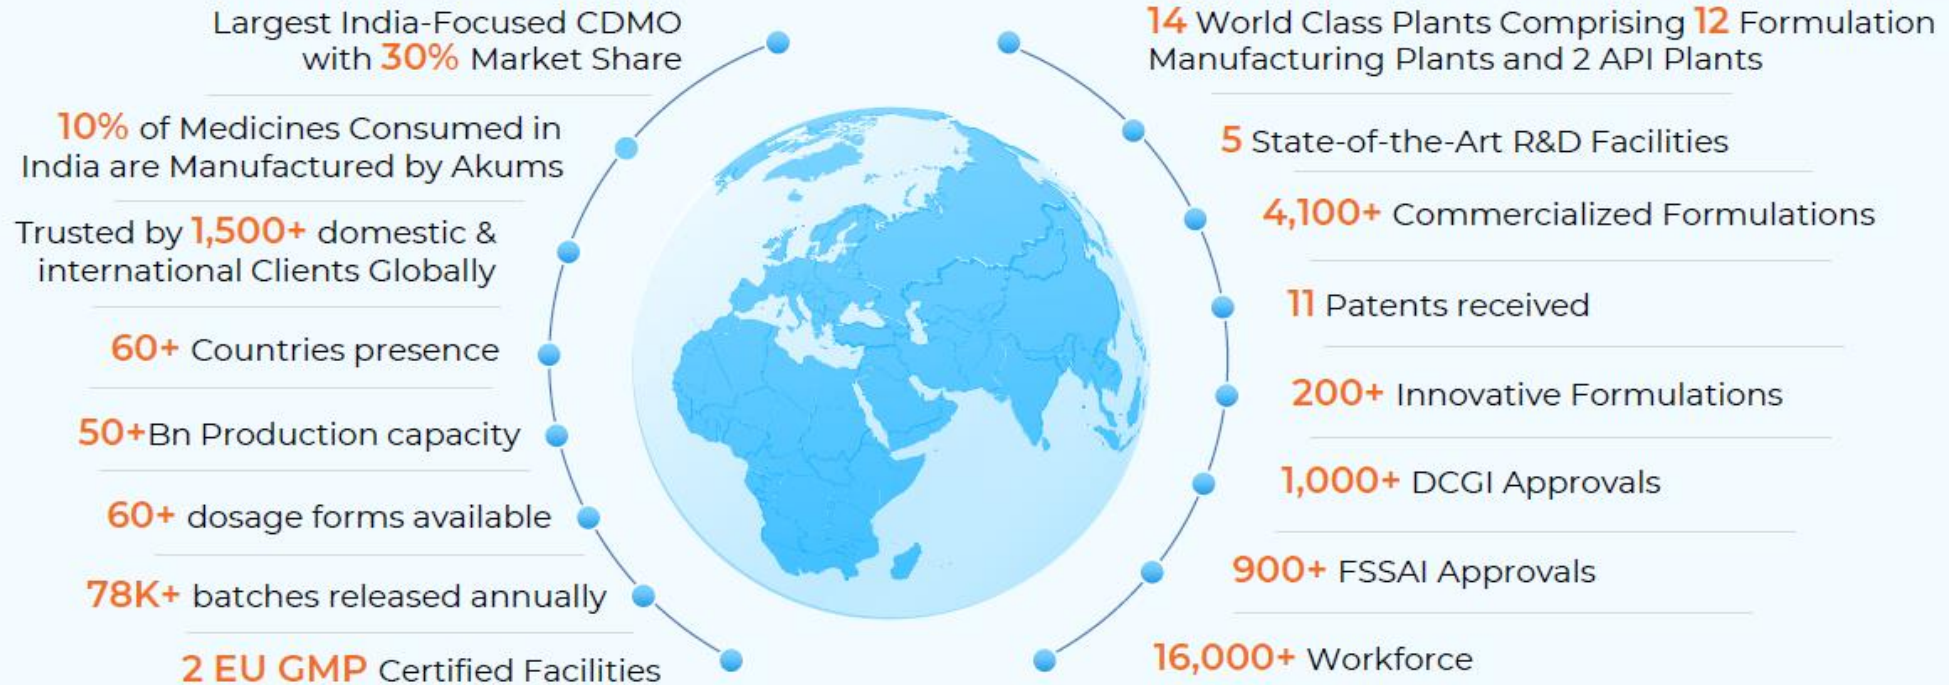

1500+
clients

21,000+
SKUs.

Akums at a Glance

Our Key Strengths

Akums got listed on NSE/BSE in August 2024.

Akums' collaboration with the Zambian government involves forming a joint venture to establish a state-of-the-art pharmaceutical manufacturing facility in Zambia, scheduled to begin operations by Q3 FY28.

We are a Public Listed company. Got listed in August 2025. Prior to that a PE firm owned 22% share of the company

Promoters own 75% share

25% is owned by Public & financial institutions

We are 4th largest CDMO in the world in terms of volume supplies

We are 2nd largest in terms of number of customers served

We aim to become the largest CDMO of the world in terms of customers served and also the volume supplies.

Till recent years we were present in India only in terms of our manufacturing base. Now we are expanding ourselves to the world & putting up manufacturing facilities outside India as well.

We are also working on having manufacturing facilities in multiple countries now.

From India to the World

Our Expanding Footprint

Global presence in **65+ countries**, covering both regulated and emerging markets.

Over **1,200+ product** registrations and **115+ ready CTD dossiers**.

Therapeutic Expertise
Broad portfolio from anti-infectives, CNS, gynecology to nutraceuticals.

Versatile Business Models.
Contract Manufacturing
Tech Transfer
Co-Development
Out-Licensing
Manufacturing Collaborations

Business Verticals

Two Decades' Legacy of Expertise, Experience & Trust

2004

Incorporated in April 2004

Set up of **first plant for oral solid dosage form** in Haridwar.

2005-09

Established dedicated manufacturing site for **Oral Liquid Dosage & Sterile products.**

Established Maxcure Nutravedics Ltd. to **venture in nutraceuticals.**

2010-13

Dedicated facilities for **Hormones, Cosmetics and Dermatology.**

Launched **Akumentis** to venture into branded formulations.

Introduced **bi-layered and tablet-in-tablet**

Acquired **Malik Lifesciences**

2014-18

Expanded into **Asian markets.**

Acquired **Pure & Cure Healthcare⁽⁴⁾**

Established R&D lab in Mumbai to **venture into regulated market.**

Received **US-NSF Certification** for Maxcure Nutravedics facility.

2019-21

In Nov 2019, **Quadria Capital** bought a minority stake in the company.

Acquired **Parabolic Drugs** to venture into **API**

2022-25

Plants 1 and 3 are accredited with **EU-GMP**, while **Plant 3** additionally holds **ANVISA** certification, qualifying it for European and Brazilian exports.

Listed on **NSE and BSE** in August 2024.

2004 ← **Build** → 2010 ← **Strengthen** → 2021 ← **Accelerate** → 2025

Innovating for a Better Tomorrow: Our R&D Units

- 5 R&D facilities **employing 400+ Scientists**.
- Our state-of-the-art Mumbai R&D center for product development, exclusively for **regulated markets, like USA, EU, Canada, Australia, Japan, China** etc.
- Capability to work on the innovative platform technologies like MR pallets, DP development, Lyophilisation technology & verities of Novel Drug Delivery system.
- Potential to develop novel Injectable solutions, complex injectables, suspensions, emulsion, liposomal and nano-particulate formulations for small molecules, proteins, peptides, antibodies, diseased gene silencing by therapeutic siRNA
- Recently developed facility for nitrosamine impurities analysis, Impurities characterization.
